

M'NAB HEARD IN DIGGS CASE

Former District Attorney Identifies Articles Found in Bungalow at Reno

STAR WITNESS NOT YET ON THE STAND

Defense Centers on Attempt to Prove Girls Made the Trip Willingly

SAN FRANCISCO, Aug. 12.—Ex-Federal District Attorney McNab failed to mention his dispute with the federal authorities, causing national discussion, when he testified today in the trial of Maury Diggs, charged with violating the Mann white slave law by eloping to Reno with Marsha Warrington. The puerile-minded among the sensation-seekers were rewarded, however, for McNab was utilized to identify the sheets from the beds in the bungalow at Reno, where the quartet were arrested. These, with other exhibits found in the bungalow, were used by the prosecution in an effort to establish violation of the law.

It seemed certain that neither of the girls would testify before late today.

Three hundred people were massed before the barricade in the corridor before the court room long before the trial hour. Many were in line at 7:30. Men familiar in the Barbary Coast resorts brushed shoulders with club women and school girls. Several times deputies were compelled to drive the crowd back to prevent it from rushing the barricade.

Theodore Kyka, handwriting expert, resumed the stand to conclude his testimony, which occupied the greater part of Friday's session. He was followed by Chief of Police Hillhouse of Reno, who told of finding the quartette in a Reno bungalow, all in various stages of undress. On the way to the police station, Hillhouse testified, Diggs declared: "It's up to you girls whether we go to the pen." The witness declared Miss Warrington replied: "We'll stay with you."

It was expected that Martin Beasley, Miss Norris' uncle, who traced the elopers to Sacramento, would follow Hillhouse, Miss Warrington then taking the stand.

Devlin, for the defense, cross-examining Hillhouse, endeavored to show that the girls were in a happy frame of mind when found, and that there was no evidence of them having been in duress. Hillhouse's answers were largely affirmative.

C. T. Read, the Reno constable who was with Hillhouse when the elopers were discovered, followed his chief, substantiating his testimony. During the examination of Read Special Prosecutor Roche announced that the next witness would be John L. McNab, ex-Federal District Attorney, who resigned after charging Attorney General McRoyd with delaying the prosecutions because a "pull" for the defendants was exercised in Washington.

Practically all witnesses were interrogated regarding the condition of the bungalow when the elopers were routed from bed on the morning of March 14th by Chief Hillhouse and other officers. Hillhouse testified the girls came from the bathroom with hair disordered and dresses loosely donned. He reiterated the statement ascribed to Diggs to the effect that he "hoped the Sacramento officers would place him in a strong box for fear Mr. Warrington would shoot him." Bearing again on the state of mind of the girls when arrested Hillhouse said the quartette sought permission after the arrest to attend the theatre in the evening. To offset this Roche brought out that when the girls were confronted by Beasley, Miss Norris' uncle, both wept bitterly. This was followed by a return of bravado. Miss Norris, Hillhouse said, declaring "it is too bad we were interrupted, we were having the time of our lives."

Miss Warrington's father took the stand when court resumed at 2:30 after the noon recess. Hundreds again fought for admittance. Many spectators went without lunch to hold seats in the court room.

Currency Bill May Be Dropped For Session

WASHINGTON, Aug. 12.—Following a conference of Chairman Owen of the senate banking committee with the senate steering committee rumors are current this afternoon that the Democratic majority is considering a plan to rush the tariff bill through, sidetracking currency legislation until the next session. Kern, the majority leader, denied the report, saying the senate caucus on the currency bill will be held Thursday.

Bulletins of News

THE WEATHER

Fair tonight and Wednesday; light west winds.

Call issued for National Bank Statement
WASHINGTON, Aug. 12.—The Comptroller of the Currency has issued a call for a statement of the condition of all national banks at the close of business August 9.

Negro Lynched for Attacking White Woman
LAURENS, S. C., Aug. 12.—Charged with attacking a white woman, Richard Puckett, a negro, was lynched here and his body riddled with bullets. He protested his innocence to the last.

Supposed Airship Drops Into Lake Erie
TORONTO, Aug. 12.—What appeared to be an aeroplane collapsed above Lake Erie this morning and dropped into the water. If it was an airship its aviator undoubtedly perished.

GOES AFTER PIPE LINES

Railroad Commission Sumsmons Nineteen Companies as Start of Probe

SAN FRANCISCO, Aug. 12.—With the new oil pipe line act effective the same railroad commission began a probe today into various lines. The laws says that all concerns owning or operating lines for the transportation of crude oil or petroleum shall become common carriers subject to the provisions of the public utilities act.

Nineteen companies were ordered to appear Sept. 4 to show cause why they should not be required to file a schedule of rates. They are: The Standard, Associated, Producers' Transportation, General Pipeline, Plinal, Dome, Paente, Central, Home, Cariosa, San Luis Obispo, Aefining and Producing, Coast Oil Transportation, Mission, Associated, Pipeline of Salt Lake, Amalgamated Central of Los Angeles and Palmer Union.

3000 DELEGATES AT LONG BEACH ASSEMBLY

LONG BEACH, Aug. 12.—Following the formal opening of the Long Beach Assembly Sunday night at the Forum and the First Methodist church by the greeting of the 3000 delegates by the mayor and heads of civic organizations, the assembly settled down to the enjoyment of a three weeks' program on art, literature and religious subjects, yesterday morning at the Baptist church.

The first speaker of the day was Rev. E. P. Ryland of Hollywood, who conducted the Bible study and who took for his subject the prophecy of Jonah.

Rev. Mr. Ryland was followed an hour later by Mrs. L. H. Carson whose address was filled with interesting reminiscences of missionary life in Burma.

Dr. W. G. Geistweit of San Diego followed Mrs. Carson in the first of a series of subjects dealing with God. The separate subjects refer to the evidence of God, fellowship with God, the relation of God to human sufferings, and the "reach" of God. Dr. Geistweit's first subject, "God—Is He?" was presented yesterday to an audience that filled the church.

VOTES LACKING TO ORDER IMPEACHMENT OF GOVERNOR SULZER

ALBANY, Aug. 12.—Failing in an attempt to muster sufficient votes to put through the resolution for the impeachment of Governor Sulzer on charges of misconduct in office, the Tammany Hall members of the assembly announced they would not attempt to call the session to order until 8:30 to-night.

GET THEIR FEES THREE LIMIT IN TAX LEVY AND STOPS FOR WEDDINGS TILL 1915

Constitutional Guarantee Gives People Can Vote Three Cents the Orange County Justices a Pleasant Smile

NO CHANGE HERE WHILE TERM LASTS

Marriage Business Right Good Thing; Brings \$6600 a Year from Outside County

Deputy District Attorney Hill of Los Angeles county rendered a decision yesterday that may do all right for Los Angeles County but it won't do down in this county. The county is not going to get the marriage fees in this county until January 1, 1915, and there is no way of getting around that fact. No, sir, the marriage business is a right good business still, and what is more it is going to keep right on being.

Hill decided that justices of the peace cannot charge \$5 for marrying people. He has nothing against the ministers for his decision does not prevent Los Angeles ministers from securing a fee for a marriage ceremony. In Los Angeles it has been the law for some time that all marriage fees collected by a justice should be turned over to the county treasury. That has not been the law in this county, and it was not the law when the constitution was amended as follows:

Sec. 15. No judicial officer, except court commissioners, shall receive by his own use any fees or perquisites of office; provided, that justices of the peace now holding office shall receive to their own use such fees as are now allowed by law during the terms for which they have been elected. [Amendment adopted Oct. 10, 1911.]

That is plain English. When Justice Cox's term is up marriage fees will have to go to the county. Until then it goes to pocket.

And, mind you, the marriage business is quite a comfortable kind of a thing. Orange County issues on an average of about 115 licenses a month, and around eighty-five per cent of them are to couples who come here from elsewhere. For each license issued the county collects \$2, all of which goes to the county. This totals around \$2400 a year, counting outsiders only. Then the legal fee is \$2. Once in awhile somebody feels especially liberal, and he hands out \$5. On an off-hand guess, it may be said that the marriage business from outside the county brings the justices of the peace and the ministers of Santa Ana about \$250 a month, which will total up \$2400 a year. And \$2400 is a right plump sum, and what is more it is real money, not the kind of a dividend sometimes promised by stock-sellers. This goes to those who do the marrying.

After Jan. 1, 1915, the justices will get none of it for themselves. The picking will still be good for the ministers. The fact that Los Angeles justices must do marrying for nothing may keep a few couples from coming to Santa Ana. Up there it will cost ten cents to go to the courthouse, nothing for getting married and ten cents carfare home. To have the affair occur in Orange County as a surprise to their friends it will cost \$2 round-trip on the electric cars and \$3 for the fee. After Jan. 1, 1915, the \$3 fee will not be collectable by the justices, but there is no reason why the ministers should do all the marrying then.

CITIZENS BATTLE WITH BANDITS IN AN IOWA TOWN

WEST LIBERTY, Iowa, Aug. 12.—The noise of an explosion of nitroglycerine when yeggs attempted to blow the safe of the postoffice here attracted a crowd of citizens, who engaged in a gun battle with the cracksmen. One citizen was shot and seriously wounded. The bandits fled, a posse pursuing.

SENATE TRYING TO RUSH TARIFF BILL

WASHINGTON, Aug. 12.—The senate today instituted longer sessions to expedite tariff bill consideration. It is expected that Pointedext, Republican, of Washington, will vote with the Democrats, but it is doubted if La Follette will follow. Kenyon of Iowa and Clapp of Minnesota are undecided whether to side with the Democrats.

HALF MILLION FOR CANADA'S FAIR EXHIBIT

OTTAWA, Ont., Aug. 12.—Canadian plans for participation in the Panama-Pacific Exposition at San Francisco are yet in the formative stage, but the exhibit, it was learned today, will cost probably half a million. Commissioner Hutchinson will proceed to San Francisco to make arrangements.

JAPAN INDICATES A HANDS OFF POLICY

Refusal to Receive Diaz Generally So Accepted—State Department Thinks Situation Better

WASHINGTON, Aug. 12.—Direct reports from both Lind and O'Shaughnessy that affairs in Mexico City are quiet encouraged the state department today. Despite contrary reports Lind, it is said, has made no positive declarations regarding the outcome of his mission. The report from Tokio that Diaz will not be received as an official envoy is surrounded in mystery. The reason assigned is regarded here as a diplomatic way of saying that Diaz is not wanted. It is thought the enthusiastic welcome of American Ambassador Guthrie in Tokio was in disapproval of Huerta's apparent effort to use Japan as a club against America to force Mexican recognition. Officials here in a position to know say that Japan and America were never so friendly as now; that the negotiations over the California anti-alien law increased rather than diminished the friendship.

The state department declares it is satisfied with the progress of the Mexican situation. It is stated here that Lind will not attempt to communicate directly with any Mexican officials, his work being done entirely through Charge D'Affaires O'Shaughnessy and Mexican Foreign Minister Gamboa. Lind may confer with the Constitutional representatives but will not go into the territory held by Carranza, the Constitutional leader. It is expected his mission will consume a month.

WILSON CHARGES PLOT TO FORCE INTERVENTION
WASHINGTON, Aug. 12.—Two sensational charges developed yesterday in connection with the Mexican situation. One was by the President, who alleged the existence of an "organized desire" proceeding from sources unknown to him—to bring on a war between the United States and Mexico. The other, preferred by Senator Smith of Michigan at the White House conference on Saturday night between the President and Senate foreign relations committee, was the effect that Secretary Bryan virtually recognized the Huerta government on April 8, last, and subsequently corrected his action.

The election will come the day after the bond election, which was last night set for Sept. 11. On the 11th the people will have two proposals to consider at the ballot box. One proposal is the issuance of \$63,000 bonds for improvements in the water works and the other is a proposal to issue \$12,000 bonds for the betterment of the fire department, including the addition of a fine new automobile fire truck.

The election ordinance on the bonds brought out a lot of discussion. Trustee Greenleaf wanted to know why the board had concluded to ask for \$63,000 water bonds instead of \$60,000 as at first proposed. Water Superintendent Reid answered that with \$60,000 the department could do \$60,000 worth of work and with \$63,000 it could do \$63,000 worth, and a good deal more would still be left to be done after \$63,000 is expended. Greenleaf was satisfied with the explanation. He wanted to make sure that the money was all needed. That election ordinance was carried unanimously.

INDIAN CONFIRMED AS REGISTER OF TREASURY

WASHINGTON, Aug. 12.—The senate last night confirmed the nomination of Gabe E. Parker of Oklahoma as register of the treasury. Parker is a full-blooded Choctaw Indian. Confirmations were also returned on the appointments of Francis F. Wrenn postmaster at Newcastle, Cal.; Royal Meeker of New Jersey, commissioner of labor; Thomas Anear, superintendent of the mint at Denver, Colo., and Frank E. Wheeler, assayer of the mint, Denver, Colo.

LONG BEACH TO HAVE LARGE WOOLENS PLANT

LONG BEACH, Aug. 12.—In spite of the unsettled condition of the woolen schedule of the tariff and the alleged money stringency in the East, the local backers of the California Woollens Manufacturing Company received word today that their headquarters in Topeka, Kas., is being dismantled and the machinery crated for shipment to Long Beach, where extensive buildings are being erected for the manufacture of woollen goods. J. F. McAfee, general manager of the company, says the factory will be in operation by December 1.

We Thank You all For Your Patience and Forbearance

No, Mister; no, Madam; the Register has NOT "suspended publication;" NOR has it "changed to a morning paper;" and it DID "get out a paper" yesterday and Saturday and Friday.

But we've been moving into our new building on the corner of Third and Sycamore.

Ever try to move a newspaper plant and get out a paper with it while moving?

If you did you know it's like what Lord Bacon said about a dog walking on its hind legs; the wonder is not that he does it so badly but that he does it at all.

But we did it—that is, figuratively speaking, we stood on our heads and walked on our hands; but we got the paper out. It wasn't very well printed while it was run on our old auxiliary press, and it was late getting out, and we suppose some subscribers were missed by some of the carriers who were "afraid to go home in the dark."

However, we are now all settled in our new home and everything is running smoothly. In future we hope and believe we shall be able to give our subscribers a better paper and a better service than ever before.

AND WE THANK YOU MOST SINCERELY FOR YOUR PATIENCE AND FORBEARANCE.

LOCAL JUDGE NOT IN THE LIST

Gov. Johnson Makes Number of Appointments Today, But Withholds Others

FOUR CIVIL SERVICE COMMISSIONERS NAMED

Four Judges for San Francisco and Two for Kern County Announced

SACRAMENTO, Aug. 12.—Governor Johnson today appointed eight superior court judges. Other appointments and the Los Angeles county judicial appointments were withheld. Charles Reed, San Francisco, J. M. Hunter, Los Angeles, and Edgar Williams, Redlands, were named as civil service commissioners at \$3000 annually.

Howard Peairs of Los Angeles, succeeds the late Judge Bennett of Kern county, while Milton T. Farmer of Berkeley fills the newly created bench in Kern county. A. G. Rolger, Sacramento; M. C. Zumwalt, Tulare; George Atherton, Stockton, and Lewis Frankenhimer, Stockton, are made members of the reclamation board. George Crothers, Franklin, Griffin, Marcel Corf and Adolphus Grainger are named as superior judges for San Francisco.

NEW PARCEL POST RATES EFFECTIVE ON AUGUST 15TH

Instructions Are Received Here to Increase Size of Packages and Rates

Postmaster Shaw has received instructions concerning the increase in the weight of parcel post packages the same to be effective after August 15, said increase being from 11 to 29 pounds.

The rate of postage for packages for local delivery will be 5 cents for the first pound and one cent for each additional two pounds. And in the first and second zones the rate will be 5 cents for the first pound and one cent for each additional pound.

The new rates applied to the weights will make the cost of sending packages as follows:

Weight	Local	1st-2nd Zone
1 pound	\$.05	\$.06
2 pounds	\$.06	\$.07
3 pounds	\$.07	\$.08
4 pounds	\$.08	\$.09
5 pounds	\$.09	\$.10
6 pounds	\$.10	\$.11
7 pounds	\$.11	\$.12
8 pounds	\$.12	\$.13
9 pounds	\$.13	\$.14
10 pounds	\$.14	\$.15
11 pounds	\$.15	\$.16
12 pounds	\$.16	\$.17
13 pounds	\$.17	\$.18
14 pounds	\$.18	\$.19
15 pounds	\$.19	\$.20
16 pounds	\$.20	\$.21
17 pounds	\$.21	\$.22
18 pounds	\$.22	\$.23
19 pounds	\$.23	\$.24
20 pounds	\$.24	\$.25

From the above it will be seen that for twenty-four cents a twenty pound parcel may be sent to points in the second zone, which includes all towns not over 100 miles from Santa Ana. Thus a twenty pound package may be sent to Riverside, Redlands, San Bernardino, San Diego or Santa Barbara for twenty-four cents.

EFFORT TO SETTLE VIRGINIA WAR DEBT

WASHINGTON, Aug. 12.—Commissioners met here today as representatives of West Virginia and Virginia in an effort to adjust the amount due Virginia by West Virginia as the latter commonwealth's portion of the Virginia state war debt. The litigation has been pending for nearly a score of years and the supreme court of the United States in a recent decision suggested that the two states get together to settle the exact amount West Virginia shall pay. The commissioners have already had one meeting here, at which no agreement could be reached.

CROOKSHANK-BEATTY COMPANY

LOST HIS HAND IN COLLISION WITH AUTO

Boy Skating Along Sidewalk Fell and Hand Was Thrust Into Chain of Machine

Abraham Nasatir, aged 9 years, had his left hand so badly mangled by the chain and a cog-wheel of a delivery truck of the Vienna Bakery that all the fingers and thumb and about half of the palm of the hand had to be amputated. The accident occurred last evening on Spurgeon street at the exit of the alley back of Kenton's Grocery.

William Cochems, proprietor of the Vienna Bakery, was driving the delivery truck east out of the alley on to Spurgeon street, between Third and Fourth streets. Little Abraham was going south on the sidewalk on the west side of Spurgeon street and alongside of Kenton's grocery. He had a skate on one foot and was rolling along on it, showing himself with the foot that had no skate upon it.

When Cochems approached the street, he saw the boy coming, and he stopped the automobile before it had run off the sidewalk space. The

boy could not stop. At the speed he was going he was pitched forward against the side of the machine, and his hand, which he instinctively threw out to catch himself, shot under the body of the automobile and was caught in the chain and evidently was pulled once around the sprocket.

The boy jumped up quickly, and at most without a word he started to run toward his home, which is at 109 Grange avenue. The hand was bleeding profusely. T. H. Fowler of the Auditorium Theater caught the boy, and helped him into Cochems' automobile, and the injured lad was taken immediately to the Santa Ana Hospital.

Mrs. M. Nasatir, the boy's mother, was informed, and she had started to the hospital to see her son when she collapsed, and had to be put to bed at the hospital. She was removed to her home this morning, and is still suffering from the shock.

The boy was following the practice of many boys in using his skates on the sidewalks of the busy portion of the city. City Marshal Jernigan stated that there is no ordinance regulating where the skates may be used, but the police have taken it upon themselves to stop the use of skates on Fourth street as much as possible.

\$100,000 HOTEL FOR MOUNT WILSON STARTED

PASADENA, Aug. 12.—The preliminary construction work on the new Mount Wilson Hotel started yesterday. The new structure will be of reinforced concrete and will be built on the summit of the mountain, which is a trifle more than 6000 feet above sea level. The hotel will replace the hostelry which was destroyed by fire about a year ago.

The new hotel will cost approximately \$100,000, and when completed will be one of the finest mountain hotels in California.

ERUPTIONS ON ALASKAN COAST

Every Volcano in Great Western Range Becomes Active; Island is Reformed

SEATTLE, Aug. 12.—Emitting either steam, a dense vapor or smoke from their craters, every volcano of the vast mountain range of western Alaska and on the island adjoining is threatening eruption. News of the renewed activity of the famous volcanic chain of mountains of the Aleutian islands, far to the westward from Seward, was brought by Captain C. O. Crisp, master of the new United States revenue cutter Unalga, which arrived in Seattle today, completing her first cruise to Bering Sea waters. The Unalga sailed from Seattle May 1, visiting Nushagak, Bristol Bay, the Pribilof islands, Shumagin islands and as far to the westward as the little island of Attu.

"Mount Kanaga, on the island of Kanaga, of the Andrean group in the middle Aleutians; Mount Kiska, on the island of Kiska, of the Rat island group of the eastern Aleutians; Mount Makushin, in Unalaska, eastern Aleutians; Mount Carlinel, on one of the islands of the four mountains, and Mount Shishaldin, on Unimak island, are all emitting steam and showing signs of activity," said Captain Crisp today.

"Mount Katmai, which devastated Kodiak island, is again active and is sending out smoke. However, there have been no real eruptions of volcanic ash as far as I could learn."

Captain Crisp said that Bogoslof island, one of the wonders of the age, which was formed by a submarine eruption of a volcano in 1906, has a completely different appearance, undoubtedly caused by another eruption in the depths of the sea. The entire island disappeared for a time and was reformed in an entirely different position and with a different formation and outline.

PAYS NO ATTENTION TO BORDER TURMOIL

SAN DIEGO, Cal., Aug. 12.—Though this is the largest city on the Mexican-Yankee boundary line, wars and rumors of wars in Mexico have affected it about as much as it were located on the Canadian line. Business and social life goes on just as if there were no turmoil below the imaginary line. Only the arrival of regular steamers with refugees from the Mexican ports south of the line remind that there are troubles down in that "poco tiempo" country.

As a matter of fact San Diego is too busy building wharves, docks, piers, enlarging her harbor facilities, water system, streets and her business blocks, to say nothing of her big Panama-California Exposition to pay any attention to rumors from the southern republic.

Mexican and Central American steamers have arrived and departed on regular schedules ever since the

first outbreak of trouble in Mexico three years ago. The only possible difference these troubles can make in San Diego is to deprive the exposition of a Mexican exhibit and this is not a conclusion yet as much work is being done now and has been done already to get this exhibit together.

Mexican authorities in control from time to time have none of them declared their country will be unrepresented at the exposition. Central America already has provided a large amount of exhibit material.

A the exposition grounds rapid progress is being made on the buildings and six of them are now under way or completed. The latest to be started is the California state building, a structure that will cost a quarter of a million dollars, one of the most stately architectural features of the entire Pacific coast. Of reinforced concrete, it will stand for all time to come.

Exhibits and concessions are coming fast and transportation arrangements have been completed with east-west lines for hauling these.

Water pipe in a solid train load arrived last week from Alabama and ships are unloading vast quantities of lumber and building material constantly at the water front.

San Diego, though only 14 miles from the Mexican border, probably is less affected by the "Mexican situation" than any other city on the entire international border line, and judgments and building permits, is less affected by the "financial situation" than any other city in the country.

DEMOCRATIC SENATORS IN A BAD MUDDLE

Senate Lawyers Find Difficulties in Way of Naming Successor to Johnston

WASHINGTON, Aug. 12.—A title game was sent last night to Democratic leaders in Alabama by Senator Overman, acting chairman of the senate judiciary committee, advising them that Governor O'Neal in the opinion of the Democratic lawyers in the senate, has no power to appoint a successor to the late Senator Joseph E. Johnston.

The message added that a majority of the lawyers-senators held the governor could call a special election at once, but qualified this by adding that there was much difference of opinion in the judiciary committee as to whether it was necessary to call the legislature into session to authorize a special election.

Governor O'Neal, Senator Bankhead and others had asked for an opinion from the judiciary committee as to the quickest way of filling the vacancy under the terms of the recent constitutional amendment providing for the direct election of senators. The question was discussed at a full meeting of the judiciary committee.

The Democrats want Mr. Johnston's successor seated because they now have only forty-six known votes for the tariff bill and the Republicans are likely to have forty-seven. Today's developments, however, tended only to confuse the Democrats and there is likelihood of further complications arising out of the new direct election law.

Suffered Eczema Fifty Years—Now Well

Seeing a long time to endure the awful burning, itching, smarting, skin-disease known as "eczema," another name for Eczema. Seem good to realize that the J. R. HOBSON'S ECZEMA OINTMENT has proven a perfect cure.

Mrs. D. L. Kenney writes: "I cannot sufficiently express my thanks to you for your Dr. Hobson's Eczema Ointment. It has cured my letter, which has troubled me for over fifty years." All druggists or by mail 50c. Advertisement.

ACTIVITY AT CAMP WILKIE

Y. M. C. A. Boys on Catalina Island Outing Are Having the Time of Their Lives

Camp Wilkie, Avalon, Cal.

August 11, 1913.

To the Editor:—Camp Wilkie is in good running order, but everyone is so busy that it is hard to get anyone to write newspaper articles. We have the biggest camp ever held out here, 115 boys, 17 leaders, four secretaries, two cooks, a doctor and a physical director, making a total of 149. Of these 55 are from Orange county, 43 from San Bernardino county, and 35 from Los Angeles county. Mr. Ruenitz, the group county work secretary of the Y.M.C.A. for Southern California, is in charge of the camp. Mr. Gummere, secretary of the Los Angeles County Y.M.C.A., is in charge of all meetings, the Bible classes, the chapel and the evening bonfire. Mr. Hartwig, secretary of the San Bernardino County Y.M.C.A., is in charge of the athletic and educational work, and Mr. Hamilton, secretary of the Orange County Y.M.C.A., is in charge of the commissary and equipment.

Our two Japanese cooks are taking good care of their department, and the boys are enjoying their eats regularly three times a day. The boys have two swimming periods a day and a dip before breakfast. Twenty-three boys are in the beginners' swimming class, and each one has a special teacher who is working hard to teach his pupil to swim. A surprisingly large number are already swimmers. Many of these are working for the special tuition to be given those who can swim fifty yards, also fifty feet on the back, and be able to dive. Last year twenty-four boys learned to swim here.

A large number are trying to win their honor emblems, and are doing things in athletics, aquatics, woodcraft, scouting, Bible study, etc. This system makes the matter of discipline comparatively an easy matter, and gives every boy an opportunity to develop along the line in which he is most interested, at the same time requiring him to spread his interests over a number of departments.

A splendid series of Bible studies is being carried out, entitled "Jesus in the Mountains," and these are carried on just before breakfast.

Each tent of seven boys and the leader takes its turn waiting on table, hauling water from the well, washing dishes, cleaning tents, etc.

Too busy to write more this time. R. J. HAMILTON.

JAPAN WILL NOT NOTICE OFFICIALLY VISIT OF DIAZ

TOKIO, Aug. 12.—The government has issued a statement that no official notice will be accorded the visit of Felix Diaz, who sails from Vancouver tomorrow. The official reason cited in the Emperor's absence at his summer home. The real reason is believed to be unwillingness to cause adverse American comment.

Minister Praises This Laxative

THREE LIMIT IN TAX LEVY AND STOPS

(CONTINUED FROM PAGE ONE)

ly discovered by changing various words in the ordinance. The proposal to be voted upon will be to levy a tax of three cents, one cent for each of the three purposes specified by the law. The city attorney said that if the people vote that ordinance no city bond can be put on a greater tax for those purposes without a vote of the people, and that the ordinance will make the putting on of the tax compulsory.

If the people fail to vote this three cent levy, which under the present assessment will raise \$1983, the present board may take it for granted that the people do not want appropriations made for bond contracts and advertising.

Three Minutes Only

With the publication of a new ordinance today or tomorrow it will be unlawful for any person to allow his automobile to stand for more than three minutes without a restricted district round about the corner of Fourth and Main streets.

Three minutes is the limit. Somebody wanted five minutes, but Trustee Grubb was right on the bit for three minutes or less. He said three minutes is plenty long enough for anybody to take on or discharge passengers from an automobile or for a man to jump out of his machine, buy a cigar and light up. He does not contend that it is long enough for a woman to buy a pair of shoes or partake of a glorious strawberry sundae, but he thinks that people addicted to the shoe and sundae necessity habits ought to take their machines to some place where the traffic is not congested.

The ordinance was given second reading last night. It will be unlawful for any vehicle to stand on the street for more than three minutes on North Main street for a distance of 100 feet from the center line of Fourth street; on Fourth street, either east or west, for a distance of 100 feet from the center line of Main street; and on Main street south of Fourth street for a distance of fifty feet from the center line of Fourth street.

The city attorney construed this ordinance to be an emergency ordinance, and he put in the emergency clause, so that it may go into effect at once.

There was some more talk with the city attorney appealing for an ordinance that will prevent vehicles from passing to the right of an electric car charging or taking on passengers, but as yet the ordinance has not been drawn up.

Skating Rink

Roberts Bros., newcomers, applied for a permit to start a skating rink on a lot on East Fourth street east of the P. E. freight yards. The matter was referred to Greenleaf and McPherson.

To Repair Sweeper

The street sweeping machine came in for discussion last night. The discussion ended with an instruction to the street superintendent to have the machine put into good repair.

Holzgrate was granted permission to move a corrugated iron building from near the library to West Second street near the corner of Second and Main streets.

TEJON PASS ROUTE IS ONE FAVORED

Two Disputed Sections of State Highway Settled at Meeting of Commission

SAN FRANCISCO, Aug. 12.—Two sections of the state highway—the stretch extending between Gilroy and Salinas and the one between Bakersfield and Los Angeles—which have been in dispute, will be constructed along the routes originally planned by the State Highway Commission. Decision to adhere to the first routing was reached yesterday in Governor Johnson's private office in this city at a meeting of the commission and an advisory board presided over by the governor. The gap between Fresno and Bakersfield is still open to debate and the controversy will be settled at another joint meeting to be held here on August 22.

The Gilroy to Salinas section is to pass over the San Juan hill, the route from Betanel via Watsonville and Castroville being rejected. The course from Bakersfield to Los Angeles will follow the ridge and cross Tejon Pass, the opposing route via Caliente, Tehachas, Mojave and Lancaster being considered undesirable.

Whether Bakersfield will be reached from Fresno on the straight line originally intended or whether the highway will pass through Visalia and Porterville is the open question. Besides Gov. Johnson the following were present at the meeting: J. J. Dwyer, president of the State Harbor Commission; Dr. F. W. Hatch, president of the State Lumber Commission; Wilbur E. McClure, state engineer; Burton A. Towne, Charles H. Blaney and N. D. Burlington, members of the State Highway Commission.

RECALL TALK WAS NOTHING BUT TALK

Anaheim Plain Dealer: There will be no attempt made to recall Supervisor William Schumacher. The movement, such as it was, is a dead "abortion." It emanated from a handful of La Habra men. They threatened to recall Mr. Schumacher because the state highway has not been routed to their liking. Although Mr. Schumacher had no more to do with the selection of the route than the humblest of the La Habra men, the recall was threatened. It ended with the threat and will not be revived.

The trouble with the La Habra men over the location of the highway through their valley, originated within their own camp. The residents of the upper part of the valley wanted the highway to go through that section, and the people of the lower part of the valley wanted it equally as bad down their way. Both factions presented petitions to the board of supervisors urging their cases, and the supervisors, without recommendation, forwarded the petitions to the State Highway Commission. The latter decided upon the upper route, whereas the advocates of the lower route set up the howl of "recall."

And there was nothing further to it. It is very doubtful if a sufficiently signed petition could have been got up to demand a recall election. It is a certainty that Mr. Schumacher would not be recalled were such an election to be held. There are many votes of the "state and sane" persuasion in the third supervisor district to consider for a moment the recall of so highly an efficient public official as William Schumacher has proven himself to be.

VIENNA COURT WILL SNUB NEW PRINCESS

VIENNA, Aug. 12.—Humiliating disappointment awaits former Marie Freese, of Los Angeles, now the bride of Prince Stanislaus Sulkowski, nephew of the Grand Duke of Bielefeld, if she thinks that her husband can carry her into court circles and obtain full recognition for her there. Two high court functionaries were asked their opinion of Prince Sulkowski's statement that no objection will be raised against his wife and that she will take rank equal to that of any princess in Austria.

"That is random talk," said one of the functionaries. "This is the tenth Prince Sulkowski who has married beneath his rank and he must know perfectly well the precedents that will bar his wife's presentation at court."

"Miss Freese, or Princess Sulkowski," will never set foot in the Burg palace as the Emperor's guest, save, possibly in the manner that certain foreign ambassadors by their influence may obtain for her merely an outsider's invitation to a court function."

FIX PRICE OF 92 FOR S. P. SHARES

NEW YORK, Aug. 12.—Union Pacific directors at a special meeting yesterday decided on 92 as the subscription price of the offering of certificates of interest in the company's \$83,576 shares of Southern Pacific stock.

This includes the dividends accumulated on the stock since January 1, 1912. The right of subscription by stockholders will terminate on September 2 next, at which time payment is either to be made in full or, at the option of the stockholders, \$25 per share and the balance with 5 per cent interest on or at any time before September 2, 1914. Under the other terms of the above offer announced July 11, holders of Union Pacific preferred or common stock, may subscribe to the certificates of interest to the extent of 27 per cent of their holdings of Union Pacific stock. This means that it will require the rights attaching to four shares of Union Pacific stock, either common or preferred, to secure a certificate representing one share of Southern Pacific.

red, to secure a certificate representing one share of Southern Pacific.

Right and Left.
The old English words "right" and "left" have come into more and more general use, and that, too, with the help of other than English people. For some years the words of command have been changed on the ships of a German transatlantic line. Instead of ordering a change of course by the old terms, "starboard" or "port," as the case might require, the same orders are now given by the shorter word "right" or "left." The change was made in the German navy at an earlier day.

It was not long ago that the English word "larboard" was used where we now use "port." There is no difficulty in seeing that two such words as "starboard" and "larboard" were unfit for their use, as they sounded too nearly alike. They were also too long. There is need of short, sharp words, which are easily distinguished. Often there is no time to correct an error, and a mistake is fatal. "Right" and "left" are short and sharp enough. If they differed more in sound they would serve all the better.—St. Louis Republic.

Up Against the Judge.
He was a Scottish advocate, and in his pleading he had several times pronounced the word "enow" for "enough."

"Mr. —," the judge remarked at length, "in England we sound the 'ough' as 'uff'—'enuff,' not 'enow.'"

"Verra weel, ma lord," continued the self-possessed pleader, "of this we have said enuff, and I come, ma lord, to the subdivision of the land in dispute. It was apportioned, ma lord, into what in England would be called a ploughland and a ploughland being as much land as a ploughman can plough in one day, and a ploughman."

But his lordship could not withstand the ready repartee and burst into a laugh, saying:

"Pray proceed, Mr. —. We know 'enow' of the Scottish language to understand your arguments."—London Tit-Bits.

Geography of Blushing.
"Dogs blush," said a hunter. "Look at Carlo. I'll frighten him, and you'll see him blush plainly. Dogs blush in the tail."

He pretended that he was going to whip his hunting dog, and the animal showed the whites of its eyes in fright, while the skin of its white tail was, sure enough, suffused with blood. The tail blushed vividly.

"Horses," continued the huntsman, "blush in the ears, especially in the left ear. Cows and sheep blush just above the fetlock. Watch that spot on a cow. When she blushes there it's a sign she's nervous. Move the milk pail then, for she is likely to kick it over."

"Cats and mice and lions and tigers blush at the roots of their antennae, or whiskers."—New York Tribune.

Rain From a Cloudless Sky.
When rain falls from a cloudless sky it is generally believed that the moisture has been brought by the wind at a great elevation. In the south Atlantic it has been known to rain for more than an hour while the sky was entirely free from clouds. In the island of Mauritius it is not at all uncommon for rain to come from a cloudless heaven. Slight showers fall during the evening when the stars are shining brightly. It is thought by some that these showers are the result of particles of ice forced in the higher region of the atmosphere melting and falling. Others attribute it to currents of warm and cold air traveling in opposite directions, with the result that the latter condenses some of the moisture in the former and causes it to fall in the form of rain.

Where the Strain Was.
Among the ancestors of Wendell Phillips were several Puritan clergymen. Perhaps it was a push of heredity which made him, at five years of age, a preacher. His congregation was composed of circles of chairs, arranged in his father's parlor, while a taller chair, with a Bible on it, served him for a pulpit. He would harangue these wooden auditors by the hour.

"Wendell," said his father to him one day, "don't you get tired of this?"

"No, papa," wittily replied the boy preacher; "I don't get tired, but it is rather hard on the chairs."

Superstitious.
"He was the most superstitious card player I ever saw."

"Yes, and he got so superstitious here lately that he doesn't play cards at all now."

"Is that so?"

"Yes. He suddenly discovered that there are thirteen cards in each suit."

Proof of It.
"Well," remarked the boxer, as he walked the floor with his first born, "some of my enemies have said that I couldn't put a baby to sleep, but I never believed it till now."—Week's Sport.

Pretty Good Evidence.
Mrs. Hoye—I think my husband is getting absentminded. Mrs. Doyle—How so? Mrs. Hoye—He recently mailed a letter on the same day that I gave it to him.—New York Press.

Doing Very Well.
"Bah! He has no energy."

"He has energy enough to roll his own cigarettes and to carry a large cane. You can't expect too much of a young fellow."—Exchange.

Sarcasm.
Patron (to very slow waiter)—Bring me some salad, please. And you might just send me a post card every now and then while you're away.—Judge.

TEMPLAR CONCLAVE OPENS IN DENVER

Twenty-five Thousand Knights in Parade Today—City is in Gala Dress

DENVER, Colo., Aug. 12.—With the most spectacular parade Denver has witnessed in years, the Thirty-second Triennial Conclave of the Grand Commandery of Knights Templar opened here today. Between 25,000 and 30,000 knights in dress uniform were in the line of march. Every state in the Union was represented. More than 175,000 residents and visitors witnessed the brilliant spectacle. The parade, composed of fifteen divisions, was led by Most Eminent Sir William Melish, supreme grand master of the Grand Encampment of America and of the Supreme Great Priory of Canada. The head of the procession entered the stadium at 10 o'clock and it was after noon when the last division had passed into the big amphitheater. There were fifty-four bands in line. The stadium, built to seat 30,000 spectators, was filled.

The Grand Encampment was formally opened this afternoon at 2:30 in El Jebel temple, with addresses of welcome by Governor Ammons, Mayor J. M. Perkins and Cornelius J. Hart, grand commander of Colorado. Grand Master Melish responded for the visitors. Following these formalities the public was excluded while the encampment went into executive session. During three days secret sessions will be held twice daily. The rule of the commandery has been to advance each officer one step towards the position of grand master; consequently the only new officer to be elected will be the grand junior warden from the main body of the grand encampment of the 275,000 Knights Templar in the jurisdiction of the United States, less than 200 are members of the grand encampment, which is made up of all past and present grand officers.

Damascus Commandery No. 42, of Detroit will give a battalion exhibition drill tonight in the stadium and city park. Preceding the drill the court of honor on Champa street will be formally opened by Grand Master Melish. The court extends four blocks and the local conclave spent \$20,000 on the lighting and decorations. At one end of the court is the figure of a knight on horseback and at the other a representation of a Colorado sunset done in multi-colored lights. Between the two are forty-eight illuminated columns, one for each state grand commandery. Scores of powerful searchlights will be played on the court of honor during the festivities. Throughout the city are dozens of illuminations representing scenes famous in Templar history.

LOS ANGELES LABOR TO PICNIC AT OCEAN PARK

SANTA MONICA, Aug. 12.—More than a hundred Los Angeles labor organizations will join in the Labor Day picnic at the Ocean Park beach September 1, which is the date of Labor Day this year. Entertainment places are preparing to accommodate the biggest gathering that has come here for such a celebration.

The amusement program arranged by the labor committee is a long one. The big attraction is a 150-yard dash by business agents and organizers of the various unions. A fine of \$1 will be imposed on all agents or organizers who fail to enter.

For women a tag-of-war and a free-for-all fifty-yard dash are billed. Races for boys and girls and other speed contests are scheduled. An early morning entertainment for fans will be found at the Southern Pacific diamond in Santa Monica, where the nines of two labor unions will clash.

Mothers! Have Your Children Worms?

Are their feverish, restless, nervous, irritable, dizzy or convulsed? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give "Kickapoo" Worm Killer at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists, or by mail 25c.

WHY DO THE GIRLS LEAVE SCHOOL?

Probably the treatises on sociology which one studies in college would say it is because their parents want the money the child can earn. But are Father and Mother smart enough to get possession of any large part of the daughter's pay envelope?

The United States government recently issued a pamphlet dealing with this subject. According to this study, the desire of parents for the earnings does not figure as the cause so much as the fact that the girls are tired of school.

Pocket money is quite as attractive to the girl as to the boy. The latter enjoys being able to take his girl friends on automobile rides and lining them up against the soda fountain.

Similarly to the young girl, pocket money is the raw material of clothes. Clothes are the arsenal of the campaign for a beau. The prevailing home sentiment is that last year's school dress, with a little modernization, will do very well for the coming season. The girl sees much better than Mother the utility of any such temporizing course. Nothing will give her her true social position but several new frocks. Then there are millinery and other incidentals.

Whenever she mentions these vital truths, Mother refers to disagreeable subjects like Dad's life insurance policy. Dad looks worried and grows more absorbed in the newspaper. What can an ambitious girl do but get out in the real world, away from bookland and its melancholy shadows, and hustle for her own pocket money?

It is of course needless to analyze or refute this point of view. The girl who quits school too soon is the girl who gets married too soon, who is driven into the factory to help her husband. Meanwhile the little ones grow away from home influence like little weeds.

INTERIOR TO SEA

There are four or five railroad lines crossing the Sierra Nevada mountains. There is one railroad line through the Tehachapi mountains and another one in course of construction. At least two railroad lines pierce the corresponding mountains at the northern end of California. All these mountains are higher and more difficult than the Coast Range mountains through which there is yet no railway north of Tehachapi.

The project has been discussed of extending the Alameda line of the Southern Pacific beyond Coalinga to connect with a railroad on the coast line to San Luis Obispo. The railroad on the coast side is a mere coal track little used, but it has at least a graded right of way on which heavy rails could be laid. The road on the valley side as far as Alameda is a first class modern railroad and the gap between is extremely short in miles. It happens, however, that these miles measure the exact crest of the Coast Range mountains and that most of the distance would have to be traversed by expensive tunneling. With all the rest of the line on both sides, however, already complete, it would seem that the development of California is now sufficient to justify connecting up the intervening ten miles or so, even if this particular strip is very expensive.

Further north there are passes already surveyed, through which it is entirely practicable to build railroads from Fresno to Monterey Bay. The existing lines of the Southern Pacific on the two sides of the mountains are close enough at one point so that connection between them would be by no means prohibitive in cost. A direct route independently owned would be better, of course, but the physical connection could be accomplished by either method.

In extreme northern California, there is no connection with the immensely rich and beautiful Humboldt Bay country except by sea or overland by road. This evil, however, is being remedied and the railroad which will connect San Francisco and the interior with Eureka is now under construction and well towards completion. Otherwise the only connection between the interior and the coast has been by way of San Francisco Bay, where nature itself pierced the mountains.

The railway system of California will never be complete and the social and business unification of the state will not be accomplished until it is possible to traverse the state in an east and west as well as a north and south direction. Let it be hoped that some of the factors on this subject

WHAT IS DOING ABROAD

(By Ed. L. Keen, London Correspondent United Press)

LONDON, Aug. 12.—There is no question that London today is the champion city of the world for diaphanous drapery. Recent visitors from Paris, Vienna, Berlin, Budapest, and even Rochester, N. Y., say that the exhibition of female landscapes in Bond street and Piccadilly surpasses anything of the sort they have ever been privileged to see. The Miss Blossom who was fined \$25 in Richmond for blossoming out in a slashed skirt, from description of her dress, wore winter garments compared to scores of dresses seen here. In point of tenuity it makes the August attire of the women folk back home look like that of Eskimos at a mid-winter outdoor fete.

And the militant suffragettes and circumspect, unfrivolous Right Honorable Herbert Henry Asquith, Premier of Great Britain and Ireland, have been blamed for it all. While it is conceded that ascetic looking Premier Asquith wouldn't risk even one eye should Lady Godiva pass through Downing street, his accusers insist that he is the real reason for the prevailing English ultra-up-to-date variety of X-ray dresses, bifurcated blouses, slashed skirts, and almost stockings. This is their argument.

Asquith refuses to give women the vote. Thereupon one section of the female population felt compelled to emphasize their claim to equality with men by appropriating their costumes as far as possible; while the other section, as a protest against this method, proceeded to accentuate their femininity by revealing to a greater or less degree those features which distinguish them from the opposite sex. In other words, the latter are garbing themselves in the manner which their experience indicates is most alluring—the gown that delicately suggests what it conceals, the soft, swishy, translucent fabrics that are so effective in assisting the imagination.

This view is upheld by one of London's foremost nerve specialists who declares: "While many women follow the fashion of the moment without a thought, militancy has done more than its authors suspect to upset the former delicate relations between the sexes. The adoption by the militants of masculine or near masculine attire has caused a reaction, and the non-militants have thought it their duty to proclaim their femininity by a wholesale process of undressing."

"Lucile" (Lady Duff-Gordon), writing from Paris, refuses to believe that the situation in London is as bad as it has been represented. "If there is a suggestion of 'innocency,'" she says, "it is because fat and ugly women have been wearing dresses which

may turn out to be true, and that some of the projects may be realized in actuality. Then the present artificial isolation of the sections will be at an end. C. H. R. in California Outlook.

WOMEN AS POLICE

Of course it is a dry time for the cartoonists and the paragraphers. The bathing suit girl is overworked, the silt skirt not eternally available. Still, those eight policewomen just commissioned by the city of Chicago may not be quite so much of a joke as the journalistic funny men seem to think.

The popular conception of a policewoman was well expressed when the Los Angeles chief provided Mrs. Alice Stebbins Wells, one of the first women on a city force, with her badge. He remarked that the token ought to be ornamented with lace ruffles. But a star with lace ruffles was just what Mrs. Wells did not want.

The duties of the policewomen recently appointed in a number of cities are usually to inspect moving picture houses, penny arcades, skating rinks, dance halls, parks. It is a large field.

When dealing with slum Apaches, the average city policeman appears as St. George among dragons. In assist-

ing strangers and adjusting clashing traffic, his urbanity coupled with force is the admiration of the world. If external order prevails, if men and women pursue a calm current of business and pleasure, the average policeman concludes that all is well. Yet just out of sight there may be poison viper heads of vice, while the erect and manly "copper" embellishes the street.

What can the policewoman do to guard the young girls that throng city streets, dressing to attract men, and who dance along the primrose path of cheap amusement? Good hearted innocent girls at the start. But their parents permit them to be masters of their own fates. Few know the real stakes of the game they are playing. Can the policewoman do anything to guide and restrain? If so, her work is wanted. It is up to her tact.

WASHINGTON, Aug. 12.—Cam Whitthorne of Vallejo has been named by the President to be assistant appraiser of merchandise at San Francisco. With the exception of a postmaster to succeed Arthur Fisk and the successor to former United States Attorney McNab, this nomination completes the list of federal appointments for San Francisco.

COMMITTED SUICIDE BECAUSE OF DEBTS
SAN DIEGO, Aug. 12.—Norman Fair, 45 years of age, killed himself here yesterday because he owed friends the sum of \$16, which he had borrowed and failed to pay back. Just before he fired the fatal shot, Fair recalled the names of six persons who had done favors for him. These he jotted down in a note addressed to his brother, which said: "Pay those debts to honor me to the world."

The Best Pain Killer
Bucklen's Arnica Salve when applied to a cut, bruise, sprain, burn or scald, or other injury of the skin will immediately remove all pain. E. E. Chamberlain of Clinton, Me., says: "It has cured and other injuries of their persons. As a healing remedy its equal don't exist." Will do good for you. Only 25c at all druggists.—Advertisement.

VALLEJO MAN GETS JOB AS APPRAISER
WASHINGTON, Aug. 12.—Cam Whitthorne of Vallejo has been named by the President to be assistant appraiser of merchandise at San Francisco. With the exception of a postmaster to succeed Arthur Fisk and the successor to former United States Attorney McNab, this nomination completes the list of federal appointments for San Francisco.

VENICE MOTORDROME DESTROYED BY FIRE
VENICE, Aug. 12.—Tramps enjoying an afternoon siesta underneath the Playa del Rey Motordrome auto race track were responsible for the partial destruction of the track late yesterday afternoon. Investigation by officials pointed to the fact that the careless throwing of matches by vagrants caused the destructive fire. The motordrome, which was owned by the Pacific Electric, is so badly wrecked that it will never be rebuilt. It was erected in 1909 at a cost of \$12,000. It has been used for races the next day after the Santa Monica road contests since being erected with the exception of this year.

Tustin Frost Protection League
—At a meeting of the Frost Protection League held recently, the following resolution was unanimously adopted: "That all persons wishing to join the League should do so not later than Saturday, August 16th, after which date no new members can be admitted."
J. H. H. LIPPIATT, Sec'y.

DANCE
Don't forget the dance in Fraternal Brotherhood Hall after band concert Wednesday evening.

SHAM PATRIOTS AND POISON PRESS AROUSE MEXICO'S IRE
All over the United States the editorial column is punctuated by a big interrogation point: Why is Mexico unfriendly to this nation? The question marks an absence of common morals and common sense. What country ever had a better cause for resentment and bitterness? From the very outset of its internal trouble a large section of the subsidized press, including the Hearst papers, with a private ax to grind, has belittled intervention, although without the shadow of excuse under any interpretation of international law. Interested senators and members of congress have flouted and insulted Mexico

legislation. The attitude of these sham patriots has been that of the cheap bully and coward. Does any one suppose if Canada were deadlocked in a struggle ten times as desperate as the Mexican revolution that anyone would dream, still less talk, of intervention? The calm attitude of two presidents has been the best answer to this wild talk and perhaps will promote a better understanding between the two countries when peace is finally restored. But in the meanwhile the rasping spirit of jingoism cannot fail to rouse a deep sense of wrong in a people who have a sort of passionate love for their national existence and would drop all barriers to fight for it to the death.

LOCAL BASEBALL STAR RETURNS

Charles Barker, locally known as "Tiny" returned Sunday afternoon from the East, where he has been on the pitching staff of some of the big league teams. "Tiny" left Santa Ana in the latter part of last March, after he had made a name for himself by his splendid pitching on the local high school team. He was originally signed up with the Chicago White Sox but as is usually the case with all new players in the big leagues, was transferred to the Wausau team in the Wisconsin-Illinois league, class B company. From there he went to the Evansville, Illinois team, where he pitched excellent ball. Barker was with this team for about a month and a half and then was sent to the Lodi, Michigan, team, from which he withdrew and returned home for the remainder of the season.

While "Tiny" was in the East he traveled with fast teams and gained much baseball experience that will be of great value to him. Barker is very enthusiastic about his experience in big company and says he is more anxious to succeed in professional baseball than ever before. For the training he has had he has made an excellent record. Naturally at times he was a little wild and lost his control, but on the whole he is to be congratulated for what he has accomplished.

At present "Tiny" has some flattering offers in view but as yet he is undecided what he will do for the rest of the season. He expects to go back into the game again next season.

BOUGHT HOME IN NUTWOOD

Handsone Residence Sold Yesterday to Manager of Lemon Association

(By Staff Correspondent.)

ORANGE, Aug. 12.—The handsome residence of C. M. Donley, in Nutwood Place was sold yesterday to Mr. C. W. Eastin, manager of the Central Lemon Growers' Association at Villa Park. Mr. Donley expects to build a new home on his ranch in the northwestern part of the city. The Nutwood home is one of the finest in Orange.

Frank J. Higgins and Detective Sergeant Edward J. Flaherty, both of Chicago, are visiting at the Edward J. Flaherty ranch here. The party motored to Laguna Beach on Friday and to Newport Beach on Sunday. Plans for the entertainment of the two visitors include trips to Long Beach, Riverside, Redlands, San Diego and Catalina.

W. O. Rowley and son, of Exeter, have arrived for a visit with relatives here.

Misses Lottie and Nellie Carrier returned from a two weeks' visit in Los Angeles and Santa Monica, Saturday.

Mrs. James Hanna and children, of Santa Monica, are here for a visit with relatives.

Mrs. M. B. Thompson spent yesterday with friends in Anaheim.

J. H. Landford of Home Grove, Texas, left yesterday for San Francisco, where he will spend some time. He visited his brother, A. F. Landford, and other relatives while here and will probably visit here again and in San Diego before he returns to Texas.

The prayer meeting this evening will be held at the Methodist church, beginning at 7:30 o'clock. Miss Ida Spotts will lead the meeting.

Mrs. A. F. Lankford returned Sunday evening from Brandon, Texas, where she has been visiting relatives since the last of May.

E. Meehan returned from Long Beach Sunday evening, where he has been spending the last several weeks.

Miss Mary Andrews of Waterbury, Conn., who has been spending several months at Long Beach, has arrived and expects to spend some time with her cousin, Mrs. Emily Evans, at El Modena.

Miss Bessie B. Lea and Miss Lottie Carrier spent yesterday in Los Angeles.

Mrs. Chas. Lehmer and son, Charles, are at Long Beach for a few days.

Mrs. Jack Meehan and Mrs. Emma Struck returned this afternoon from a week's visit in Long Beach.

SOCIETY

Wedding at Talbert
Samuel S. Clapp, who runs a confectionery store at Talbert, and Miss Cora Hudson of Santa Ana were married Monday afternoon by Rev. A. B. Waldrep. Mr. and Mrs. Clapp left immediately after the ceremony for Corona, where they will visit relatives. They expect to be gone about one week. They will make Talbert their home and will live in the house of Mrs. Chandler.

Missionary Society Meets
An all-day out-door meeting of the Women's Missionary Society of the First Presbyterian church will be held tomorrow, Wednesday, August 13, at the home of Dr. H. S. Gordon at 402 Cypress avenue. The morning session will open at 10:30 and the afternoon program will take place at 2:15. Mrs. Cleland and other officers of the Presbyterian will speak.

A basket lunch will be served at noon to which the husbands of the members are cordially invited.

Informal Dinner Party
An informal dinner party was given last evening at the home of Mr. and Mrs. W. F. McClintock at 608 West Third street in honor of Dr. Bin Smith of Mexico, who is visiting points in California. Dr. Smith is the owner of a hospital in Hermosillo, Mexico. Those present were Dr. Smith, Miss Cora McClintock, Miss Annette McClintock, and Mr. and Mrs. W. F. McClintock.

AMUSEMENTS

Mirror Theatre
When Bob Fitzsimmons, the Australian kangaroo, squares off on the stage at the Mirror Theatre, Kid Daugherty, his human opponent, knows there is going to be something doing. With the true animal instinct of self-preservation Fighting Bob, endeavors to give more than he takes and if Daugherty comes out of the three-round match unscathed or unharmed he considers himself lucky.

Daugherty is not the only man on the stage who feels he is lucky when he emerges without a scratch. Harry Rossier who refereed the match last night before the packed house, was mistaken by the kangaroo for Daugherty and thought that his time had come. With his left hand he legged the kangaroo landed a solar plexus on the local boy and started to wipe up the stage with him when he went to the champion kangaroo's corner to perform the second line of work. But for the timely interference of Daugherty there is no telling what may have happened or become of Harry Rossier.

Manager Bond, said last night that he was pleased over the fact that the large audience seemed more than satisfied with the unique vaudeville act. It cost him a large sum of money and he was delighted to see a packed house showing its appreciation.

The kangaroo is interesting to men, women and children and will remain at the Mirror theatre until and including Wednesday night.

George Bradford, living at Riverside Hotel, Colusa, Calif. reports that he had a very severe case of kidney trouble and backache, which also affected the secretions. He says, "I took five boxes of Foley Kidney Pills and they cured me." All over California people report that Foley Kidney Pills "cure." Rowley Drug Co., and White Cross Drug Co.—Advertisement.

SANTA ANAS AT CATALINA ISLAND

AVALON, Catalina Island, Aug. 11.—There are few Santa Anas here this year, perhaps for the reason that there are too many attractions nearer home. Prof. B. F. Beswick and family are fixtures now and spend all their summers on the magic isle. The genial teacher and his young son, Jack, enjoy themselves hugely with rod and reel and always bring in good strings of the shining beauties.

Fishing, however, is said to be very poor this year, especially in the big fish line and many fishermen have hied themselves away to pastures new to spend their vacations. Two splendid black sea bass were brought in one day, one weighing 205 pounds and the other 230. They were captured with rod and reel.

The following is the most popular song on the island and every evening the Porter band plays and sings it and then again it is heard several times at the dances which follow. The song was composed by W. F. Arend, the genial leader of the splendid band, and runs as follows:

Oh, Oh, you Catalina;
Oh, Oh, you Catalina;
Dancing the Bonnie Hug till late,
(And splendid) swimming along the ocean,
Splashing a big commotion,
Bathing around the Bay, it's great
(shout) "SPLASH!"
Catching the little Rock Bass—
Light rod; be in "A" Class,
Sailing upon the Rose Marie
With bright eyed Magdalena,
At dear old Catalina,
"You bet"—That just suits me.

Prof. J. A. Cranston, Mrs. Cranston, their daughters, Alice and Rena, and Miss Georgia Smith are having the time of their lives. Prof. Cranston's "indress" uniform is quite becoming.

Over Sunday visitors who returned today were Mrs. Cora Cavins, Miss Wilhelmina Cavins, Mrs. M. A. Menges, Helen Menges and Miss Dorothy Dean. A merry party of young ladies, who returned home Friday, was composed of Misses Leslie Smith, Mary Smart, Bessie Lewis and Stella Daniels.

A. J. Perkins was among last week's arrivals.

Mr. and Mrs. Charles Johnson of Tustin came over Saturday evening and returned yesterday.

Mrs. Olive Lopez and Mrs. M. J. Neill returned yesterday after spending a pleasant week here.

Miss Amanda Thee and Miss Eva Hay spent their vacation here, returning yesterday on the Cabrillo.

Mrs. A. J. Visel, son Nelson and daughter, Ruth, are comfortably located on the pretty avenue. They were joined for the week-end by Mr. Visel and son, Jack.

Mrs. N. Cartmell, Miss Van Cartmell, Mrs. Freese and son, Ben, enjoyed an outing, being located at the Island Villa.

JAPANESE NAVAL SECRET IN DANGER OF LOSS
LONDON, Aug. 12.—Through the loss of a torpedo from the new battleship Kongo on her trial trip recently off the Irish coast, Japan fears that one of her most valuable naval secrets will fall into the hands of a rival power. The Japanese government has offered a reward of \$1000 for the recovery of the torpedo.

ARMY OFFICER PARDONED
WESTPORT, Aug. 12.—Announcement has been made that the President has pardoned former Captain Thomas Franklin, U. S. A., sentenced to five years in the Atlanta prison for irregularity in his accounts while treasurer of the academy, from 1902 to 1908. He served only a few months and the pardon restores him to citizenship. Negligence rather than dishonesty was believed responsible for the trouble.

FORMER ENGINEER OF CANAL IS BANKRUPT
NEW YORK, Aug. 12.—The John F. Stevens Construction Company, whose president, John F. Stevens, was appointed by Theodore Roosevelt, chief engineer of the Panama Canal and resigned under the Taft administration, filed a voluntary petition in bankruptcy yesterday. The company's liabilities are listed at \$318,743; its assets at \$201,552.

STOCKHOLDERS NOTICE
—Stockholders of the S. A. V. I. Co. have paid Assessment No. 53 levied June 28, 1913; delinquent Aug. 13, 1913.

O. E. MANSUR, Secretary.

Personals

J. L. Stephenson and family left today for Lakeside, where they will spend the next ten days visiting Mr. Stephenson's brother William and family.

B. F. Beswick writes from Avalon, Catalina Island, that the family has been joined there by Mrs. Beswick's father, Jacob Wertz, of Ceres, California, and that they will return home to Santa Ana about September first.

Mrs. George Pickering has gone on a month's vacation. She will visit her daughter, Mrs. Laura Boyes at Nooksack, Washington. On her return she will stop in San Francisco and visit her brother.

Mr. and Mrs. M. A. Bruce returned yesterday from a week's vacation at Long Beach. Today Mrs. Bruce went to Redondo to meet her two sisters from Vancouver, B. C., who expect to make a short visit here and who will also visit points of interest in Southern California.

Mr. and Mrs. G. L. Havens and Mrs. Eliza Ottstot went to Huntington Beach this morning to attend the G. A. R. encampment.

Joe Forthorington and family go to Laguna next Monday for a two weeks' vacation.

Mr. and Mrs. Frank Greenleaf and nephew and niece, Krol and Hazel Greenleaf, returned today from Laguna Beach, where they have been spending a two weeks' vacation.

Mr. and Mrs. P. E. Newman left today for Huntington Beach, where they will stay during the G. A. R. encampment.

R. E. Dickinson will return next Monday from Balboa, where he has been taking his vacation.

Miss Beecher returned yesterday from her vacation spent at Idyllwild. C. E. Timmons, a brother of J. A. Timmons, has bought of Horace Fine the local agency for the Los Angeles Examiner. Mr. Timmons has been in San Luis Obispo county the past year, and previous to that spent several years in Central America. He lived in Santa Ana about twelve years ago and is well known to many of the older residents.

Mrs. H. T. Duckett left today for a week's visit with friends in Pasadena.

Mrs. W. G. Milton, who is spending the summer at Pine Crest on account of ill health, is reported to be improving, but expects to remain there three months.

C. B. Buxton, formerly of San Bernardino, and W. F. Mackey, who comes here from San Francisco, have opened a realty office at 116 East Fourth street. The new firm is styled the Buxton Realty Exchange.

Mrs. Day of Long Beach, is a visitor this week at the home of J. P. Baumgartner.

Miss Ruth Taylor went to Los Angeles this morning, where she will attend the millinery opening of autumn styles. From the city Miss Taylor will go to Santa Monica, where she will spend a week with Mrs. J. Burn.

Mrs. Lutz Anthony arrived in Santa Ana yesterday for a visit at the home of Mrs. J. J. Calhoun of 105 Bush street. Mrs. Anthony is an old acquaintance of Mrs. Calhoun and is expecting a very enjoyable visit here. She will stay about a month.

Mr. and Mrs. A. S. Holbrook of 303 Orange avenue leave tomorrow over the Southern Pacific for a visit in Colorado and Kansas points. They will be in the East a month or six weeks.

A. H. Agnew, who has been temporarily located in Santa Ana, left yesterday over the Southern Pacific for Pittsburgh, Pennsylvania, where he will attend to some business matters before again returning to California. Mr. Agnew's family will reside in Orange during his absence.

Carrie Graham left today over the Southern Pacific for a visit in North Hanover, Illinois.

Miss Marie Simon of Anaheim is the guest of Mr. and Mrs. George Balderston for the week.

Mrs. H. Chaney and her son, from Chicago, Ill., were over Sunday guests of the T. D. Knights family.

Miss Margaret Walton of Pasadena, formerly of Santa Ana, who has been seriously ill the past four weeks, is recovering rapidly and is now at Catalina.

The Tale of the Earring
A curious instance of the survival and revival of a fashion which originated in the remotest times is the earring. Worn by the kings of Egypt, and extremely popular among the ladies of ancient Rome, it subsequently lost favor until the gay day of the Stuart period, after which it again dropped out, and has now once more regained popularity. The very earliest mention of this form of decoration is to be found in the Book of Genesis. Jacob, it will be remembered, on reaching Bethel buried certain strange idols, among them some earrings belonging to his family. Doubtless these ornaments were regarded purely in a propitiatory light as amulets or talismans, such being still their principal office in the east today. That they are of eastern origin is certain, and among Orientals, with the exception of Greeks and Hebrews, it has always been the custom for both sexes to wear them, while frequently only one ear was adorned. Among other races, however, earrings were always worn in pairs, and by the women only.

ANAHEIM CONSIDERS NEW STREET LIGHTS

Anaheim Plain Dealer: Sentiment in favor of installation of ornamental lamps on several blocks on Center and Los Angeles streets is increasing at a pace that is generally satisfying, and particularly so to J. Frederick Ahlborn, who started the movement for this street ornamentation more than a year ago, and recently took it up with a renewed vigor that indicates success of the project.

Several weeks ago Mr. Ahlborn took the matter to the city trustees and they agreed to the proposition unanimously. They unhesitatingly agreed to the purchase price for about this ornamental lamp as soon as tax money comes in—which will be in October—providing the property owners would stand the expense of installation.

Since then, Mr. Ahlborn has interviewed most of the property owners in the district proposed to have the lamps installed, and has met with nothing but success. And that is not all. Property owners in blocks adjoining the lighting district are originally proposed, now want to come in. They realize the benefit to be derived from such improvement, both from a civic and business point of view, and are eager to bear their share of the expense.

C. Otto Kist, ex-mayor and capitalist of the city, who with his family is summering at Lake Tahoe, saw an account in the Plain Dealer of the proposed street lighting, and last week wrote to Mr. Ahlborn that he considered the improvement one of the best ever proposed in the city and would give it all the support possible. Mr. Kist, however, like many other property owners, favors enlargement of the district, and this, Mr. Ahlborn thinks, can be accomplished. The original intention was to place the ornamental lights in the business section only, but in view of the fact that property owners outside of this zone are willing and even eager to pay the cost of installing a similar lighting system in additional territory, it is believed that the city trustees will purchase enough lamps to light several blocks not at first planned for.

FRANCE IS ALARMED OVER RACE SUICIDE
PARIS, Aug. 12.—Figures showing depopulation in France, published today, are regarded as the most startling in years. In the department of Gers, the figures showed that for every 100 babies born, 143 people died; in Loet-Garonne the proportion is 100 to 131. In thirty departments the deaths outnumbered the births while in only nine departments did the births come up to the average for the German Empire.

On Modern Man
The late Emerson Taylor, our consultant at Port of Spain, said a Washington official "hailed from Dry Run, and he had a kind of happy Dry Run humor."

Taylor once compared a disgruntled brother casual to a Dry Run housewife.

"This woman," he said, "often took a queer, disgruntled view of things. Thus she said one day:

"I don't think the prodigal son was so bad, after all."

"He wasn't no good to his family," said her husband.

"That's a fact," said the Dry Run woman, but when he got home, all the same, he knew enough to keep his mouth shut. If he'd been like the twentieth century man, by crinols, the first thing he'd done would 'a' been to find fault with the way the fatted calf was cooked."

A Land of Opportunity
Humboldt County, the least developed in California, presents splendid opportunities to investors and homeseekers. Men and money are needed for dairying, small fruit growing, truck farming, general farming and apple raising. A country of wonderful resources and ideal climate into which the first railroad is now building. All inquiries promptly answered by the Humboldt Promotion and Development Committee, Eureka, Calif.

OWN A FARM IN TULARE COUNTY
Pay in cash (\$700 to \$1000 on 20 acres)—balance in 1919. Diversified crops are the farmer's safeguard. Yields of \$100 to \$300 an acre are realized from oranges, olives, peaches, figs, seedless grapes, melons, berries, Turkish tobacco, alfalfa, etc. etc.

The great district is safe for oranges. The navel crop is shipped by December 15th. Our illustrated folder with map may mean much to you. Send for it.

PRESIDENT'S DAUGHTER TO WED NEXT MONTH

CORNISH, N. H., Aug. 12.—Miss Jessie Wilson, the President's daughter, and Francis B. Sayre, the New York lawyer, are to be married next month, according to information from close friends here. The invitations, it is said, will be out soon. Mr. Sayre has accepted a position on the faculty of Williams College, and he and his fiancée wish to wed and enjoy their honeymoon before Mr. Sayre takes up his duties.

Denial at White House
WASHINGTON, Aug. 12.—Reports published this morning that the Jessie Wilson-Francis Sayre nuptials will occur in September instead of November are denied at the White House.

MOVING OLD OFFICE OF S. A. V. I. CO.

Orange News: Contractor F. V. Pruitt and his force of men began active work this morning upon the removal of the old S. A. V. I. office building on North Glassell street to make way for the new structure.

The old building will be moved to Olive and there remodeled into a residence for the company's janitor at that point. The company owns property facing Tustin street, where the building will be located.

COUNTY AUTO RUN HAS BEEN PUT OFF

The committee appointed to arrange for the Associated Chambers of Commerce auto run has postponed the run for the present for the following reasons: The Bay City road is closed, fixing the county highway; Los Angeles street, Anaheim, is closed while it is being paved and the road between Slauson Junction and Huntington Park is also closed. The route on which these streets are located seemed the only logical road to some of the committee. G. E. Peters was chairman of the committee.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, the antiseptic powder, it relieves painful, smarting, tender, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. OBITUARY

Russell L. Woodington
Another many young life has gone out. Russell Woodington passed away at 8 o'clock Friday evening, Aug. 8, very peacefully, after so much suffering. He never murmured through it all, though only thirteen years old. During the time of suspense, friends and neighbors were unremitting in their attentions. Deep is the loss and heavy the affliction of parents who loved and found in him so loyal and helpful a son. He leaves his father and mother, little brother, Donald; grandmother, Mrs. Belle Clemens; uncles, H. D. Clemens, W. Woodington, and aunt, Mrs. Tom Bradbury of Wintersburg.

DERVISHES DESTROY BRITISH CAMEL CORPS

LONDON, Aug. 12.—War office dispatches confirm reports that the British camel corps was destroyed in a battle in Somaliland. Two thousand Dervishes attacked the corps while the latter was reconnoitering near Berbera, killing Captain Cornfield, and either killing or wounding fifty native soldiers. Reinforcements have been rushed from Aden. A punitive expedition will probably be sent.

FEARED DESERT CLAIMED LONG BEACH MAN

LONG BEACH, Aug. 12.—Relatives and friends of Samuel Willis, aged 77, who lived with his daughter in this city at 1515 East Fourth street, are of the opinion that the aged man has met with death in a tragic form on the desert sands, eighteen miles from Daggett, and about twenty miles from Victorville, following the discovery yesterday of the old man's abandoned wagon, and of his team of horses miles from the wagon Saturday.

Bank Book as a Character Builder

Parents, what station in life will your boy of today occupy 15 years hence? To be sure, you are educating him morally, intellectually and physically. But what are you teaching him financially? Will you thrust him upon the world ignorant of the value of money saved? Start his financial education now by opening an account in his name. We will, with your co-operation, assist him with friendly counsel and helpful advice.

First National Bank of Santa Ana

AN EDUCATION IN AGRICULTURE FOR YOUNG MEN

UNIVERSITY OF CALIFORNIA, Aug. 12—What is to be done for the young man of eighteen to twenty-five years of age who wants more education but who has not had a high school course, who cannot go to college for lack of the required high school training, but who feels himself too old to go back to the high school?

The University Farm School at Davis, entrance examinations for which are about to be held under the auspices of nearly every county superintendent in California, is one answer to this question. The University of California believes that it has developed there at Davis a valuable and altogether new type of agricultural education. Many states have established agricultural high schools, but it is a new thing to offer a three-year course in agriculture planned expressly for young men eighteen to twenty-five years of age. Since something less than twelve per cent of the young people who complete a grammar school course ever complete a high school course, eighty-five per cent of the young people of the country find themselves at eighteen years unprepared

to begin a college course even if they so desire. Now the University Farm School offers young men a valuable practical training in agriculture adapted to their maturity and to their lack of high school training. The high school graduate is not to be barred if he wants this type of education.

The courses to be given at the University Farm School, beginning with September 22 next, are planned primarily to give young men an understanding of the fundamental sciences of chemistry, botany, zoology, etc., and their application to ranch practice, and to the successful growing of forage crops and all classes of live stock. The University holds that the rancher needs not only to know what is good practice, but also to know the principles or why of that practice. Principles and laws of nature never change, but rules of practice must be constantly changed to meet shifting combinations of circumstances, and the more thorough the understanding of the principles the better the practice. The modern business rancher must have skill and experience in the management of labor and planning of work, and he must have business ability in the matter of labor and supplies and the disposition of the products of his ranch. Skill and experience in these latter things cannot be obtained in the college class room nor even in the cotton fields and barns, but there can be secured that understanding of fundamental principles, that grasp of accumulated experience and observation, and enough practice in the actual doing to make these things clear to the young man goes forth into his commercial work in a position to profit by the results of scientific research and the accumulated experience of common practice, forewarned against many of the com-

mon causes of failure.

Enough botany is given to teach the recognition of common weeds, their habits of growth and methods of eradication; the methods of selection and improvement of grain and forage crops; budding, grafting, spraying, pruning of fruits, and the packing of fruit products for market; the principles of land surveying as applied to the laying out of irrigation checks and ditches on the ordinary farm; practice in the judging of market types and the breeding, improvement, feeding, care and management of all classes of live stock and poultry. With these is given training in the application of arithmetic and algebra to such commercial problems as computation of field areas, irrigation ditch capacities, water flow, balancing of feeding rations, and computation of fertilizer mixtures. In farm mechanics, the student is given training in blacksmithing, carpenter work, operation of gasoline and other motor power, and in instruction in ordinary farm machinery manipulation. The dairy instruction includes production and manipulation of milk, and the management of the dairy business. Every successful rancher must conduct business correspondence, study agricultural literature, speak in commercial, political, social, or religious gatherings from time to time. He should, therefore, have such training in language and literature as will meet the needs of these positions. Such English as is taught is presented with a special view to their application in this way rather than to a study of general literature.

The purpose of the University Farm School is to give each student three years of useful training in the science and practice of agriculture with such general subjects as the time available permits, with a view to developing as well-rounded a citizen as is possible in the time and amount of preparation at the disposal of the student.

Entrance examinations consisting of an essay on an assigned subject, and practice in the application of arithmetic, especially percentage and frac-

tions, to common problems, will be held under the auspices of nearly every county superintendent in the state early in August. Entrance examinations will be held also at the University Farm, Davis, September 19 and 20. Courses begin September 22. The necessary expenses for one year's study will vary from \$250 to \$275. Tuition is entirely free.

One of the features which has helped contribute to the popularity of the University Farm, which is a part of the College of Agriculture of the University of California, is the way in which the demand for practical agricultural instruction for adults has been met. Aside from the regular instruction to students in the college and in the three-year School of Agriculture courses, there have been given each fall, since the farm was established in 1908, a series of short courses dealing with the various phases of agriculture in the most practical and definite way that the limited time allotted to this work would permit. The fall of 1912 over 150 students spent from two to eight weeks at the University Farm in attendance upon one or more of the short courses offered there. Of this large group of students, who were of all ages, some were experienced farmers, some were men who had just started farming, and others were city men, mechanics, clerks, and representatives of different lines of business who were developing an interest in agriculture, largely with the hope of engaging in it later. There is probably no place where more interest is taken in scientific farming than in California, nor where the "back-to-the-land" movement is more apparent, and the short courses appeal especially to people of these classes.

Six short courses will be given at the University Farm this fall, as follows: General Agriculture, Sept. 23-Oct. 25; Dairy Production, Sept. 23-Oct. 25; Poultry Husbandry, Sept. 23-Oct. 25; Animal Husbandry, Oct. 27-Nov. 8; Horticulture and Viticulture, Oct. 27-Nov. 15. The dates of the courses are so arranged that the General Agriculture course or Dairy Production course may each be followed by Animal Husbandry or Horticulture, for many students will come to stay longer than the time required for a single course.

There are no entrance examinations and no restrictions as to sex. Persons enrolling must be at least eighteen years of age. Except for the payment of small fees to cover the cost of laboratory material, tuition is free, and the only expense in board and room, which will average from twenty-five dollars to thirty dollars per month. A circular describing these short courses has been issued, and may be obtained by addressing the Dean at the University Farm School, Davis.

In the short time which a student will spend attending any of these courses, it is impossible to make an exhaustive study of the subjects mentioned, nor is this intended. The best instructors from the College of Agriculture will handle this work in such a way that the greatest benefit can be realized. There will be much laboratory work or field practice along with the lectures and demonstrations. It is not hoped to turn out successful farmers, but it is the desire to send students away with an ambition to be successful farmers, rather than ordinary farmers, and the courses of study are planned with this thought in mind. They represent a period of concentrated thought with the main purpose of improving and increasing California agriculture, and their length is such that even the busy man can afford to attend.

GET MARRIED NOW! JUSTICES OF PEACE CANNOT DEMAND FEE

Los Angeles Examiner: As a result of the oversight on the part of the legislature in drafting the amendment to the constitution in regard to marriage fees, couples desiring to be married may not be legally called upon to pay the time-honored charge of \$2 per knot.

Section 4200 E of the constitution does not include a charge for marriages by justices of the peace and under an opinion rendered yesterday by County Counsel A. J. Hill justices cannot legally demand the \$2 fee charged in the past.

The justices, however, are not losing any sleep over the matter. The bridegroom in his joy at being married to the girl he loves usually asks the price, they say. Hence they will merely suggest \$2.

DEEDS, NOT WORDS

Santa Ana People Have Absolute Proof of Deeds at Home

It's not words but deeds that prove true merit. The deeds of Doan's Kidney Pills. For Santa Ana kidney sufferers, Have made their local reputation. Proof lies in the testimony of Santa Ana people.

William Thursty, retired farmer, 417 E. Walnut St., Santa Ana, Cal., says: "On and on for years my back and kidneys bothered me. To chop wood, or walk a little distance, made the dull ache in my back worse. Nightly my rest was disturbed three or four times. Further evidence that my kidneys were disordered was shown by the kidney secretions. When I read about Doan's Kidney Pills, I got a box. My back was soon in better shape than it had been for a long time. The kidney ailments were greatly relieved, too. My former endorsements of Doan's Kidney Pills still hold good. I will always consider this remedy one that lives up to all the claims made for them."

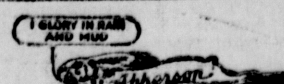

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other—Advertisement.

Los Angeles Produce Market

The first crop of local cantaloupe is expected to be over soon. A large quantity of the melons was on the market yesterday, and this, it was thought, would be the last heavy shipment for some time. It is believed that the melons will soon be rather scarce, but in a few weeks the late crop will begin to come in freely. Peaches were down, as a result of the over-supply. Casabas were scarce owing to the fact that the Imperia crop is about over, and locals have not yet begun to come in. Water melons were quite plentiful.

Bartlett pears showed marked strength, as a result of the difficulty of obtaining an adequate supply. Demands of the northern canneries, less of a crop in the north than expected and damage to the Southern California output are among the reasons given for the upward tendency in the market. Apples are in fair supply. Peaches were a shade firmer, although the supply continues very good. Nectarines are plentiful and easy. A shipment of California figs came in and was offered at 75 cents a box. Crabapples are in good supply. The market continues about steady. A shipment of Concord grapes was received. The fruit was quoted around \$2 a box. Malagas are firm and strong. Thomson seedless are in evidence at a comparatively good price. Plums are becoming less of a feature. The citrus market is about steady.

Potatoes continue rather firm. Sweet potatoes are firm. Receipts from Mexico and Imperial furnish the market with a few locals coming in now and then. Peppers, bell and chili, are weak. Tomatoes have firmed a little. Cucumbers are rather easy. Egg plants have declined.

There were no changes in butter, eggs or cheese. The condition of the market remains about the same, steady to firm.

There were no changes in butter, eggs or cheese. The condition of the market remains about the same, steady to firm.

VENTURA BEET GROWERS TO DRAIN 12,000 ACRES

OXNARD, Aug. 12.—Owners of 12,445 acres of some of the best beet and lima bean land about Oxnard are circulating petitions for the formation of a drainage district involving an outlay of about \$200,000. Irrigation greatly increases the yield of this land and unless it is irrigated it becomes so permeated with alkali as to be worthless. The land owners estimate that they can pay for the drainage system from the increased yield. The preliminary survey has been made and most of the owners are in favor of going ahead as fast as possible with the proposition.

RED MEN CONSIDER CHANGES IN LAWS

DENVER, Colo., Aug. 12.—A new system of voting on propositions to change the laws of the order was the principal question up for discussion today when the Great Council of the improved Order of Red Men opened its annual convention. It was proposed to have each tribe vote on legislative proposals, instead of leaving the entire matter to the judgment of the Great Council as at present.

Eighty delegates and past grand officers of the order from nearly every state in the union participated in today's deliberations. The convention will close tomorrow night.

NOTICE OF SALE OF ENGINE

Notice is hereby given that the Board of Supervisors of Orange County, California, will sell at public auction, to the highest bidder, on August 19, 1913, at 11 a. m. for sale, one Ford motor engine, cost of repair to be paid extra by purchaser to the County of Orange.

Bids will be received at the office of the County Clerk up to 11 a. m. of August 19, 1913.

The Board reserves the right to reject any or all bids submitted.

By order of the Board of Supervisors, W. B. Williams, County Clerk.

BOARD OF SUPERVISORS

ASK CHANGE IN
HIGHWAY'S
ROUTE

Supervisors Go Back to Lower
Route and Committee to
Make Fight for it

RIGHT-OF-WAY COST
IS MADE THE BASIS

Placentia and Yorba Linda Are
Both Asking for Formation
of Library Districts

The Board of Supervisors has jumped into the harness to help the great majority of the residents of La Habra get what they want. That great majority wants the state highway to be routed by what is known as the lower route. On information that the people of that section wanted the upper route, the supervisors endorsed that route, and so stated to the State Highway Commission. Suddenly things began to pop. The people of La Habra came down upon the supervisors with a statement that the committee that had visited the supervisors was self-appointed and represented the wishes of but a mighty few of the residents.

By that time it appeared that it was too late to do anything or make any changes. But the representations made by the friends of the lower route have been fetching. They have not only shown that they represent the sentiment of the valley, but that they are willing to do the right thing about the right-of-way.

Yesterday the supervisors passed the following resolution:

"Whereas, The people of La Habra Valley filed a petition with the Board

of Supervisors of Orange county for changing the state highway from the upper road to the lower road, and, "Whereas, The people of the lower route agree to furnish free right-of-way to the county except one corner known as the McPherson corner, and as to said corner they agree to pay \$400 for securing right-of-way; and, "Whereas, The people of the proposed upper route have not agreed to pay anything for securing right-of-way; therefore, be it

Resolved, That the supervisors of Orange county prefer the lower route, and the chairman of the Board of Supervisors and Supervisor Schumacher and the County Highway Commissioner be made a committee to confer with the State Highway Commission to see whether or not the change of route can be made."

Library District
Two petitions for elections to consider the formation of library districts have been received by the board. One from Placentia, signed by fifty-eight residents of that section, was received yesterday in time for the board to call the election for Sept. 11. The other, from the Yorba Linda section, did not arrive until after the board adjourned to meet again on Aug. 19.

These library districts will be formed under the state law, the districts being assessed to secure a fund with which to operate the libraries. Placentia's election to consider the formation of a lighting district is set for Sept. 19.

Call for Bids
Yesterday after rejecting all bids for building the county hospital and all bids for furnishing a heating and ventilating plant for it, the supervisors set Aug. 28 as the date for receiving new bids.

The report of A. L. Hitchcock as county expert was accepted. J. L. McBride, A. C. Fletcher and J. W. Duckworth were appointed as viewers of the road petitioned for by H. G. Heinman and others.

UNION PAINTERS MAKE
VOLUNTARY WAGE CUT

LONG BEACH, Aug. 12.—Union painters of this city at a recent meeting are said to have reduced voluntarily the union wage schedule from \$4 to \$3.50 per day. This reduction is to be effective only during the next few weeks, or possibly two months, and is due to the fact that there is less work for the painters at the present time than has been the case for some time.

The action of the painters was taken with the expectation that lower wages, together with a reported slight decrease in the price of lumber, will stimulate their business, it is claimed.

AT THE COURTHOUSE

WERDIN IS SUED
FOR \$10,000
DAMAGES

Clayton Opens Fire With
Broadside in Clerk's Office
Against Contractor

HARRY HARRIS IS
SUED FOR DIVORCE

Attorney in Raymer Against
Hobbs Gives Notice that He
is Going to Appeal

With a \$10,000 damage suit as ammunition, Mrs. W. H. H. Clayton today came back at E. R. Werdin, manager of the Los Angeles Paving Co. The complaint was filed in the office of County Clerk Williams today, and the damages asked are on the ground that Werdin maliciously swore to a complaint charging Mrs. Clayton with insanity.

Werdin did a large amount of street paving at Orange. He worked there for months, and but recently moved to Anaheim. While at Orange his paving was attacked by Mrs. Clayton, a property owner. She declared that it was not up to specifications, and one day she started to dig a hole through a part of it to see if it was as thick as it ought to be. She was interrupted in her work, and was taken to jail at Santa Ana, Werdin swearing to a complaint charging her with insanity. The physicians who heard the evidence decided that she was sane.

The complaint filed today is signed by three attorneys, Ben S. Hunter of Los Angeles, Jay E. Randall of Artesia and B. E. Tarter of Santa Ana. It is a short complaint, declaring that Werdin maliciously swore to the complaint, charging insanity. The complaint is set forth.

Divorce Suit Brought
Suit for divorce was brought today by Leora Buchanan Harris against Marston Harry Harris, the plaintiff being represented by Attorney Clyde Bishop. Both parties to the suit are well known in Santa Ana. The couple were married on March 28, 1912. At that time Harris was a conductor. Since then he has run a cigar stand in Santa Ana and more recently in Anaheim.

Demurrers Filed
Attorneys Waterman & Green of Los Angeles have filed a demurrer for the defendant in the maintenance suit brought by L. M. Boggs against Henry M. Boggs of Buena Park. Attorney Clyde Bishop filed a demurrer for the defendants in the partition action brought by Wilson and Blodgett against the Travis heirs.

Going to Appeal
Attorney J. W. Morin has given notice that he is going to appeal for the defendant in the case of A. Raymer against Susan Hobbs. Judgment for \$650 as a real estate commission was against the defendant.

Suit for Divorce
Action for divorce has been begun by Roma R. Witmer against James R. Witmer. McKeeby & Reed of Los Angeles are attorneys for the plaintiff.

Marriage Licenses
Charles LeRoy Ludt, 24, of Santa Ana, and Lavina Irene Waltz, 20, of Garden Grove; Jose Rubio, 26, and Marsellina Cook, 18, both of Anaheim; Samuel S. Clapp, 31, of Huntington Beach, and Lulu Hudson, 28, of Santa Ana; Ralph Tanner, 27, of Fullerton, and Carrie Eleanor Cottle, 24, of Pasadena; Clarence Sisson, 30, of Venice, and Meta M. Hunter, 36, of Anaheim.

Home made Coffee Substitute, made in Santa Ana. Trial package 10 cents. Every grocer in town has it.

PRESIDENT HAS THE
MINISTERS GUESSING

WINDSOR, Vt., Aug. 12.—The ministers of the little churches that dot this old New England county for miles around are much fussed. They are suffering from what might be properly called "nervous anticipation." And it's all because the family of President Wilson is host cosmopolitan in its Sunday worshipping. The Wilsons never announce where they will attend church until they start out and several ministers have been much flustered by these unannounced entrances when he hasn't prepared a special sermon for the occasion. Every minister up here is said to have a special sermon up his sleeve against the time when the Wilsons attend his church.

"Tales of Honey and Tar" from West and East

Wm. Lee, Pasadena, Calif., says, "It gives universal satisfaction and I use only Foley's Honey and Tar Compound for my children." E. C. Rhodes, Middleton, Co., writes, "I had a racking lagrippe cough and finally got relief taking Foley's Honey and Tar Compound." Use no other in your family and refuse substitutes. Rowley Drug Co., and White Cross Drug Co.—Advertisement.

IN THE JUSTICE COURT

CHARGE ASSULT TO
MURDER C. E. WALKER

Ramondo Griego, charged with assault with intent to kill C. E. Walker with a butcher knife, looks as though at some time in his life his head had been run over by a disc plow. Griego has scars enough to make him famous, if they were the right kind of scars.

He has part of one ear gone. Griego says a hod-up man chewed off the missing piece. He has a scar across his cheek. He got it falling down when he was drunk. He has three scars on his forehead. One of them he got when a runaway team went over him. He has a scar running the length of an eyebrow. He was a small boy drinking out of a barrel and bumped his head on the edge. He has patches of hair gone from his head. Those scars came from wounds received when he fell against a buggy wheel. There is a scar that reaches across his throat. Griego says that he tried to kill himself once when he was in a hospital. Some other scars Griego cannot place in his history. He says he has a bullet or knife wounds about his head. Everything that ever happened to him seemed to take a pleasure in disfiguring his head. Even Walker of Dahl, when Griego threatened to kill him, hit him beside the nose and knocked him off the porch. Walker swore to a complaint against Griego today.

Held to Answer
Justice Shirley of Huntington Beach today conducted a preliminary examination in the case of E. Dickerson, charged with interference with an officer, and Dieterman was held to answer. The offense alleged occurred at Newport Beach.

PROGRESSING
ON BIG JOB

Body of Man Drowned in Pit
Identified as George Scott
of Los Angeles

ANAHEIM, Aug. 12.—Brick and other construction work on the new Masonic Temple on East Center street is progressing at a rate that is highly satisfactory to the contractor, J. S. Hilend. The east and west walls of the structure are practically finished, and at the present rate of progress the building will be completed well in advance of the time specified in the contract. The temple is to cost \$35,000 and it is said will be one of the

Tasty--Appetizing--Good

Our Merchants' Lunch

Served daily from 11:30 to 1:30.

ALWAYS SOMETHING TO SHARPEN THE DULLEST APPETITE.

Our patrons come here expecting well cooked foods, quick service and moderate charges—they are never disappointed.

A New Special Each Day

We serve at least one special entree every day, that is particularly tempting.

THURSDAY we serve
Individual Chicken Pie

If you have not tried Dragon Chicken Pie you have missed a great delicacy.

The DRAGON

IN HARMONY WITH NATURE

Will G. Richmond, Inglewood, Calif., says he will be glad to answer any inquiries regarding the benefit he had from using Foley's Honey and Tar Compound. "It has also greatly benefited me for bronchial trouble and cough, and acts so well in harmony with nature, it is more like a food than a medicine." Rowley Drug Co., and White Cross Drug Co.—Advertisement.

THIRTEEN KILLED BY
CANAL ZONE SLIDE

COLON, Aug. 12.—Thirteen men were killed yesterday by a slide at the Protobello quarry, which completely buried a steam shovel near which they were working.

The dead comprise Charles Nyland, an American citizen, and twelve powdermen, drillmen and pitmen. Dr. Belisario Porras, the professor of Panama, sent his condolences to Nyland's widow.
